

A Giant Leap and a Legacy of Trust: Celebrating Nearly 70 years of Innovation, Service, and Trust.

July 20, 1969: Humanity's Historic Feat

On July 20, 1969, NASA's Apollo 11 mission achieved the extraordinary—landing humans on the moon. Neil Armstrong's words, "That's one small step for man, one giant leap for mankind," echoed as he and Buzz Aldrin became the first to walk the lunar surface. Watched by 650 million people, this triumph, inspired by President John F. Kennedy's vision, showcased human ingenuity and collaboration, uniting the world in awe.

Intimus: Nearly 70 Years of Excellence

For nearly seven decades, Intimus International North America has been a trusted leader in secure information management. Since its founding, Intimus has provided innovative shredders and data destruction solutions, empowering businesses and governments to protect sensitive information. Its commitment to reliability and cutting-edge technology has earned the trust of organizations across industries.

Innovation at the Core, Service That Builds Partnerships, & We are Just Getting Started

- Like Apollo 11's technological breakthroughs, Intimus drives innovation in data security. Its shredders feature advanced cutting mechanisms, energy-efficient designs, and user-friendly interfaces, setting industry standards. From safeguarding classified documents to ensuring compliance with data protection laws, Intimus delivers solutions that meet modern challenges, reflecting the bold spirit of 1969.
- Intimus goes beyond products, fostering lasting relationships. With a North American service network, it offers prompt, tailored support—from installation to maintenance—ensuring client success. This collaborative approach mirrors the teamwork of 400,000 individuals who made the moon landing possible.
- For nearly 70 years, Intimus has built trust through quality, security, and customer focus. Organizations rely on its solutions to protect sensitive data, just as the world trusted NASA to achieve the impossible. Intimus's rigorous standards and consistent performance uphold this legacy.

We are Just Getting Started

As we mark the 56th anniversary of the moon landing, we celebrate Intimus's nearly 70 years of leadership. With a future focused on advancing technology and deepening trust, Intimus is poised to explore new horizons in data security. Join us in honoring July 20, 1969, and Intimus's enduring commitment to innovation, service, and trust—together, we're taking the next giant leap.
